Mr. Jeffrey T. Soles
Superintendent of Schools

October 26, 2020

Dear Parents and Guardians,

The District has been diligent in our efforts to alleviate the spread of COVID -19 by closing our school buildings, sanitizing as much as possible, and practicing social distancing with everyone that comes into the schools. Unfortunately, due to the highly contagious nature of COVID-19, this virus has proven that it can continue to spread despite everyone taking appropriate precautions.

This correspondence is to notify you that the District has had a few employees test positive for the virus. As positive cases increase to the point that the District does not have enough teachers in the school to properly educate students, the only option will be to implement full remote learning. If the District has to go back to remote learning there will be an all-call, text message, and an email sent to families. Please keep in mind this action of implementing remote learning could take place in less than a 24 hours' notice.

At all times the District's primary concern is for the safety of our students and employees. At this point in time we believe that a limited number of students were in contact with possible infected staff members and those households will be notified as the contact tracing process is executed.

The District is being proactive in disinfecting and sanitizing the building daily to ensure a safe clean environment for all students and staff. The custodial staff has been trained and are doing a great job keeping up with the cleaning during the school day, as well as, in the evening.

Please continue to monitor your child or children to make certain they are symptom free prior to coming to school. The District is working at all levels to assure parents, students, and staff members are in a safe and clean environment.

Please visit the District's website for updates and informational items.

Thank you for your understanding and patience during this transition.

Sincerely,
